

REMARKS

We elect without traverse Group II claims which are drawn to an orally disintegrable tablet. We reserve the right to pursue the remaining claims in future continuations we may file.

Now Group II has claims 1,3,5,8-15 drawn to an orally-disintegrable tablet. We also chose to cancel all the claims referenced above within this elected Group II and to add a new set of claims 24-31 drawn to the matter of an orally disintegrable tablet, in keeping with the restriction recommendations of the examiner.

Support for the newly added independent claim 24 is found in the description on page 2 paragraph [0028]. Please also note the following:

Claim 25 corresponds to cancelled claim 5.

Claim 26 corresponds to cancelled claim 11.

Claim 27 corresponds to cancelled claim 10.

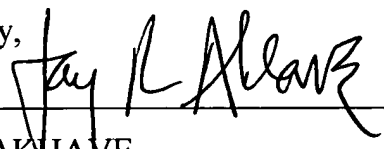

Claim 28 corresponds to cancelled claim 8.

Claim 29 corresponds to cancelled claim 13.

Claim 30 corresponds to cancelled claim 14.

Claim 31 corresponds to cancelled claim 15.

Sincerely,

JAY R AKHAVE
